SUMMARY

Passionate computer science undergraduate with 8+ years of programming experience.
Seeking internships from 4 May 2026 to 9 April 2027 (1 year).

WORK EXPERIENCE

Full-Stack Web Developer | Gnee Hong Co. Pte. Ltd. **Mar 2021 - Jan 2022**

- Designed and developed an online furniture website from concept to deployment
- Translated finalized designs into responsive websites using HTML, CSS and JavaScript
- Managed backend file hosting via cPanel and integrated content management tools

Mobile Game Developer | Dreamkids Kindergarten **Oct 2020 - Feb 2021**

- Developed an Android/iOS mobile game for preschoolers to learn phonics using Unity and C#
- Led and supported a team of interns to conceptualize and deliver a fully playable prototype
- Responsible for ensuring successful porting of the game for Android and iOS devices

EDUCATION

BSc (Hons) in Computer Science in Real-Time Interactive Simulation **Aug 2023 - Sep 2027**

Singapore Institute of Technology, DigiPen Institute of Technology

- GPA: 4.46
- Specialized in optimized game/software development/information technology

PROJECTS

3D Game Engine Project | C++, Git, JSON | Windows, Linux, Android **Aug 2025 - Present**

- Co-developing a tool to build real-time 3D video games for PC and Android platforms
- As engine lead, responsible for architecting core backend systems and extendible interfaces/frameworks to ensure efficiency and optimization
- Assisted fellow teammates by providing technical support and guidance to debug and solve coding problems and challenges

Network Engine + Game | C++, Git, TCP/IP | Windows **Apr 2025 - May 2025**

- Built a low-latency LAN networking engine supported by TCP and UDP protocols within a month
- Integrated a multiplayer game using lock-step synchronization and acknowledgements
- Optimized packet transmission and synchronization reliability to ensure a smooth and responsive experience

PSXGames Website | MySQL, Postman, HTML, CSS, JavaScript **Oct 2018 - Apr 2019**

- Designed and developed a video game review website with backend MySQL database
- Used RESTful APIs to implement client-server communication via Postman
- Features an account system to allow users to leave personalized reviews for different games

ADDITIONAL INFORMATION

- **Programming Languages:** C, C++, C#, Python, HTML, CSS, Java, JavaScript, SQL, PHP, JSON
- **Skills:** Software Design, Networking Concepts (TCP/IP Protocol), Code Reviews, Serialization, Version Control, Code Architecture, Data Structures & Algorithms, Databases (MySQL)
- **Soft Skills:** Problem Solving, Collaborative, Proactive, Commitment, Professional, Analysis
- **Languages:** English, Chinese
- **Software & Tools:** Visual Studio, WSL, Unity, Android Studio, MySQL, Git, Notion, Node.js
